

STAND  
FOR INTERACTIVE FLAT PANELS  
**DS1000**  
MOBILE AND WALL-FLOOR VERSION

Avtek

Inspire | Engage | Lead

The stand, effectively combines two features crucial to any successful presentation: Its two-column design provides the extremely stable and sturdy platform needed to mount and support even large and heavy high-performance displays. The 100 cm stroke and 36 mm/sec speed ensure that virtually all possible height requirements are met and minimize the time it takes to reach the desired display position. The stand has an anti-collision function that immediately stops the motor when it encounters an obstacle. Efficient cable management is accomplished with a heavy-duty plastic chain.
