

WALL-MOUNTED MOUNTING SYSTEM
WITH WING BOARDS
Avtek FrameWings

Avtek

Inspire | Engage | Lead

The **Avtek FrameWings** wall-mounted system is a comprehensive solution for installing an interactive display together with wing boards. It enables the creation of a functional workspace for teaching and collaboration by combining a digital screen with a traditional writing surface. The robust construction allows safe installation of displays weighing up to 100 kg. The system has been designed with stability and durability in mind, while maintaining ease of use and an aesthetic appearance of the entire installation. Thanks to compatibility with the VESA standard and the ability to adapt to different display sizes, FrameWings is suitable for both classrooms and conference environments. The design enables smooth opening and closing of the wing boards, ensuring convenient everyday use.

MODEL	Avtek FrameWings 75	Avtek FrameWings 86
Recommended monitor size	65" – 75"	86"
Maximum load	100 kg	
Installation type	Wall-mounted	
Board mechanism	Side-opening wing boards	
Board technology	PolyVision®	
Net weight (frame)	17.05 kg	
Net weight (board*)	5.9 kg	8 kg
Gross weight (frame)	20.78 kg	
Gross weight (boards*)	14.1 kg	18.8 kg
VESA	400 × 200 – 800 × 600 mm	
Minimum product dimensions	1857 × 1000 × 211.5 mm	2109 × 1138 × 211.5 mm
Maximum product dimensions	2741 × 1000 × 211.5 mm	3137 × 1138 × 211.5 mm
Packaging dimensions (frame)	1890 × 280 × 105 mm	
Packaging dimensions (boards*)	1055 × 950 × 60 mm	1190 × 1065 × 60 mm
Operating conditions	Indoor use only	
Warranty	3 years	

* Boards are packed 2 pcs. per package.
