

WALL PROJECTOR MOUNT  
**Avtek WallMount Next 1200**

Inspire | Engage | Lead

The bracket is designed for mounting short throw projectors on the wall. It has a telescopic arm that makes it easy to install the projector at a distance of 78 - 120 cm from the wall. The WallMount Next 1200 include wall plate cover. Cables can be pulled through the mount. They are only suitable for installation in a brick or masonry wall.
