

WIRELESS MICROPHONE SYSTEM
WITH TWO HAND-HELD MICROPHONES
Avtek WM 2H

Avtek

Inspire | Engage | Lead

SOLID DESIGN. INNOVATIVE TECHNOLOGIES. EASINESS OF USE

The Avtek WM Wireless Microphone System is designed to provide the most demanding users with a reliable, yet easy-to-use equipment that meets all their needs. Thanks to innovative solutions, you can operate over impressive distances with confidence and without interference, while maintaining excellent sound quality.

TRUE DIVERSITY

Using a stronger signal

With True Diversity technology, a higher quality signal will always be transmitted from the receiver up to 150m.

INTUITIVE PAIRING

Quick, simple and effortless

Avtek provides intuitive pairing so your kit will be ready to use right out of the box.

STANDARD RACK

Fits in the standards

Thanks to its designed size, Avtek WM2 fits perfectly into 19" rack standards.

MODERN SOLUTION

Protected against bang

The gyroscope, which is built into the microphone, allows it to detect a fall and momentarily mute it. It also detects when the microphone remains motionless and mute it too.
