

Avtek CAM4K WEBCAM

Avtek

Inspire | Engage | Lead

Avtek CAM4K is a webcam designed for work, learning, and everyday use. Equipped with a CMOS sensor, autofocus, and a wide-angle lens (90°), it captures video in 4K at 30 FPS or Full HD at 60 FPS. Two built-in MEMS omnidirectional microphones ensure clear audio, while the digital zoom allows for precise framing. With a USB-C interface, universal tripod mount, and plug-and-play functionality, the camera is ready to use right out of the box.

SPECIFICATIONS

Maximum resolution / frame rate	4K (3840 × 2160) / 30 FPS FullHD (1920 × 1080) / 60 FPS
Image sensor	CMOS
Image format	MJPEG/YUV
Field of view (FOV)	90° (D)
Digital zoom	8x digital zoom* *Not supported at maximum resolution
Autofocus	Yes
Focus length	From 8 cm to infinity
Built-in microphone	2 omnidirectional MEMS microphones
Microphone range	3m
Interface	USB-C
Power supply	USB
Lens cover	Yes
Status indicator	Blue LED indicates active status
Mounting	Universal mount with smooth horizontal rotation
Tripod thread	Standard 1/4" thread
System requirements	Windows XP / Vista / 7 / 8 / 10 / Linux 2.6.24 or later (including Ubuntu) / macOS 10.6 or later / Android 5.1 or later
Hardware requirements	USB-A port / More than 200 MB of free hard drive space / 32 MB RAM or more / Graphics card supporting Direct XvGA
Dimensions	14.2 x 7.8 x 8.4 cm / 238g
Package contents	Avtek CAM4K webcam / USB-C to USB-A cable (1.7 m) / User manual
